***Low Maintenance
Porch & Deck Railing***

SuperiorPlasticProducts.com

Create the *Relaxing* Outdoor Living Space You've Been Dreaming Of...

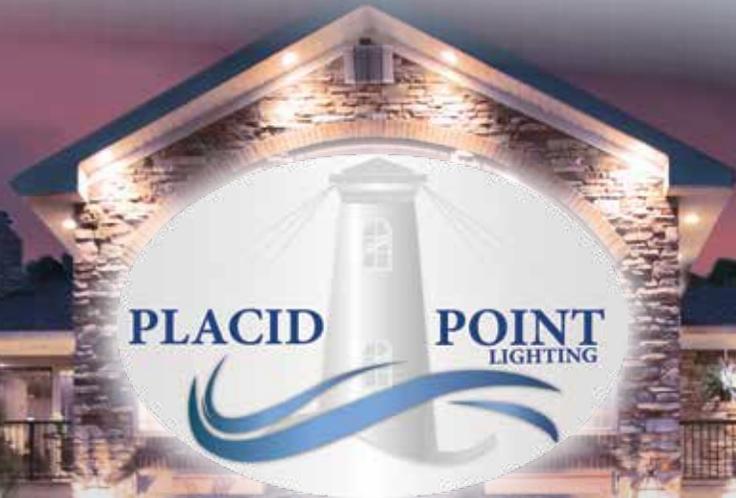

With a variety of appealing styles and on-trend colors, Superior Railing is the preeminent choice for anyone looking to design a custom outdoor retreat.

Property owners appreciate the low-maintenance style, beauty and added value that Superior Railing brings, while contractors like the conveniently boxed sections and the quick install requiring only standard tools.

For more than 25 years, Superior Systems has been making railing at our plant in Lancaster County, Pennsylvania. We start with powdered resin, extrude the vinyl, and fabricate and ship the product. Because we control the entire production process, you can be confident that our railing is built to “superior” standards from start to finish. Each piece of our railing is made from high-quality vinyl that will not split, crack or rot, and both top and bottom rail contain an aluminum channel reinforcer for long-lasting strength.
