

Finishing Touches

Customize the look of your new dock by adding bumpers and pier coverings. These options are designed to perfectly complement your Brock Dock® application.

Each piece is made with the same high-quality material as our docks, so they're resistant to the effects of weather conditions and remain durable through continuous heavy use. So just sit back, relax and rest assured that your dock will last for years to come.

COLORS AND TEXTURES

The Brock Dock® planks are available in 2 texture patterns (Crosshatch and Woodgrain) and a variety of distinct color options:

Desert Tan

Clay

Dove Grey

Alpine White

Desert Tan

Clay

Dove Grey

QUALITY YOU CAN COUNT ON

Brock Dock® systems undergo rigorous testing to ensure their aesthetic appeal and lasting structural integrity. Products are tested for weathering and structural performance as well as building code compliance. All tests are validated by an accredited independent laboratory (IAS, International Accreditation Service).

LIMITED LIFETIME WARRANTY

Westech stands behind its products with a Limited Lifetime Transferable Product Warranty. Brock Dock systems are warranted against manufacturing defects for your lifetime, allowing you to rest easy that your decision to choose a Westech product was the right one.

Building on
Perfection

Building on Perfection

Choosing a Brock Dock® system gives you the opportunity to fully enjoy precious time spent with friends and family—without the hassles that accompany other dock products. Building with a Brock Dock system means building on perfection.

Endurance

Brock Dock® systems are built to last. Weather-resistant, 100% vinyl with UV protection ensures that your dock's beauty will endure the elements for years to come. So while some other docks become faded, discolored or even rotted over time, Brock Dock systems maintain their beauty year after year.

In addition, the Clip Strip fastening system keeps screws hidden and ensures that Brock Dock planks are spaced uniformly—while managing and controlling the natural expansion and contraction that occurs under temperature extremes.

Convenience

Brock Dock® systems keep life simple, day in and day out.

You'll enjoy the ease of truly carefree maintenance because Brock Dock systems are made of premium vinyl—which means there's no need to paint, stain or seal. As a result, you won't be exposed to harsh chemicals that can be harmful to you, your family or the environment.

Don't spend valuable time maintaining your dock. Instead, you and your guests can devote your time to enjoying your outdoor space together.

Practical Styling

Brock Dock® systems offer great-looking designs to enhance your outdoor space, combined with practical features that make your life easier:

Two slip-resistant patterns ensure added safety when your dock is wet. And with a variety of colors to choose from, you're sure to find a Brock Dock system

to complement your location, whether on land or shore.

Brock Dock planks offer a traditional woodgrain pattern, while our crosshatch pattern adds a contemporary touch to your dock.

Brock Dock® systems offer the perfect durable solution for a variety of residential and commercial settings.
