

Poly Vinyl Creations

Patented Construction

Made with proprietary Linear Low Density Polyethylene (LLDPE) blend & is reinforced with galvanized steel in every post & every panel.

Superior Wind Rating

Withstands constant hurricane force winds up to 110 mph and 130 mph gusts. Certified to meet Miami-Dade county wind loads.

Excellent Sound Barrier

Blocks 98% of direct sound with a sound transmission class (STC) rating of 26.

Durable in Any Temperature

Very stable in temperature extremes. Withstands tests at -40° to 140° F.

Fade Resistant

Contains UV12 inhibitors for a lifetime of vibrant colors. Xeon-Arc chamber tested in an accelerated environment with minimal fade.

Graffiti Resistant

Easily remove graffiti using a high-powered pressure washer.

Eco-Friendly

We care about the sustainability of our environment and you should too. Both Ecostone and Ecostone Plus use recycled content in their construction.
