.75"sq x .045" wall PICKETS | 1.4375" x 1.25" x (.090" side / .060" top) ForeRunner™ RAILS
2.5"sq x .060" POSTS w/reinforced internal web

Echelon Plus has taken the quality and performance of aluminum ornamental fencing to a higher level.

Today, the damage potential that threatens fences has increased significantly in probability and destructive force. Echelon Plus is ***designed with the long-term durability to withstand rigorous environments.***

The cross-section of the Echelon Plus rail is reinforced with an ***internal web*** that significantly increases strength, particularly against ***forces acting horizontally***. This added strength, coupled with an improved post design, powder-coated finish, and fully welded gates, ***guarantees years of maintenance-free service and value.***

THE ECHELON PLUS DIFFERENCE

Echelon ForeRunner® Internal Locking System

- Internal rod is tamper proof and pickets cannot be removed
- Retainer rod is hidden and rail has a “good neighbor” appearance
- Retainer goes through two walls of picket, yielding twice the support

Competitors U-Channel Removable Tek Screws

- Picket attachment can easily be compromised with simple tools
- Exposed Tek screw detracts from a smooth architectural profile
- Tip of Tek screw barely engages one wall of picket

NO RIVETS. NO SCREWS. NO WELDS.

➤ INCREASED SECURITY

The ForeRunner Rail with internal retaining rod prevents the attachment from being compromised. Fasteners are not exposed

➤ AESTHETIC DETAILS

“Good Neighbor Design” rod follows ForeRunner centerline providing a clean and uninterrupted look, void of visible screws or rivets

➤ HIGH FUNCTIONALITY

Biasability at a minimum of 25% that requires no additional assembly
